

## National Certificate in Snowsport – Snow Safety (Level 6)

This qualification recognises people working as snow safety officers with full responsibility for the snow safety programme in a mountain area.

People holding this qualification have demonstrated that they are competent to work in a supervisory capacity with skills to develop documentation for a snow safety programme and evaluate avalanche stability and hazards for a mountain area. This qualification is designed for people needing to make assessments of snow stability and avalanche hazard for a mountain operation, for example, in a snowsport area, mountain guiding, ski-mountaineering, roading or heliskiing operation.

The elective section allows people to select credits to either broaden their core skill base or specialise in a chosen area.

This qualification will be awarded to people credited with a minimum total of 60 credits and who have met the compulsory and elective requirements.

Prerequisite: National Certificate in Snowsport - Patrol (Level 4)

<b>Compulsory</b>
